

Steel Nail Making Machine

Nail Making Machine Z94-C Series adopts piston structure to ensure the high working speed, low noise, high size accuracy and less chance of impact characteristics, especially can make excellent quality You Mao nail and other special-shaped nail which are suitable for high speed studs for welding machine and nail gun.

Technical parameter of common wire nail making machine:

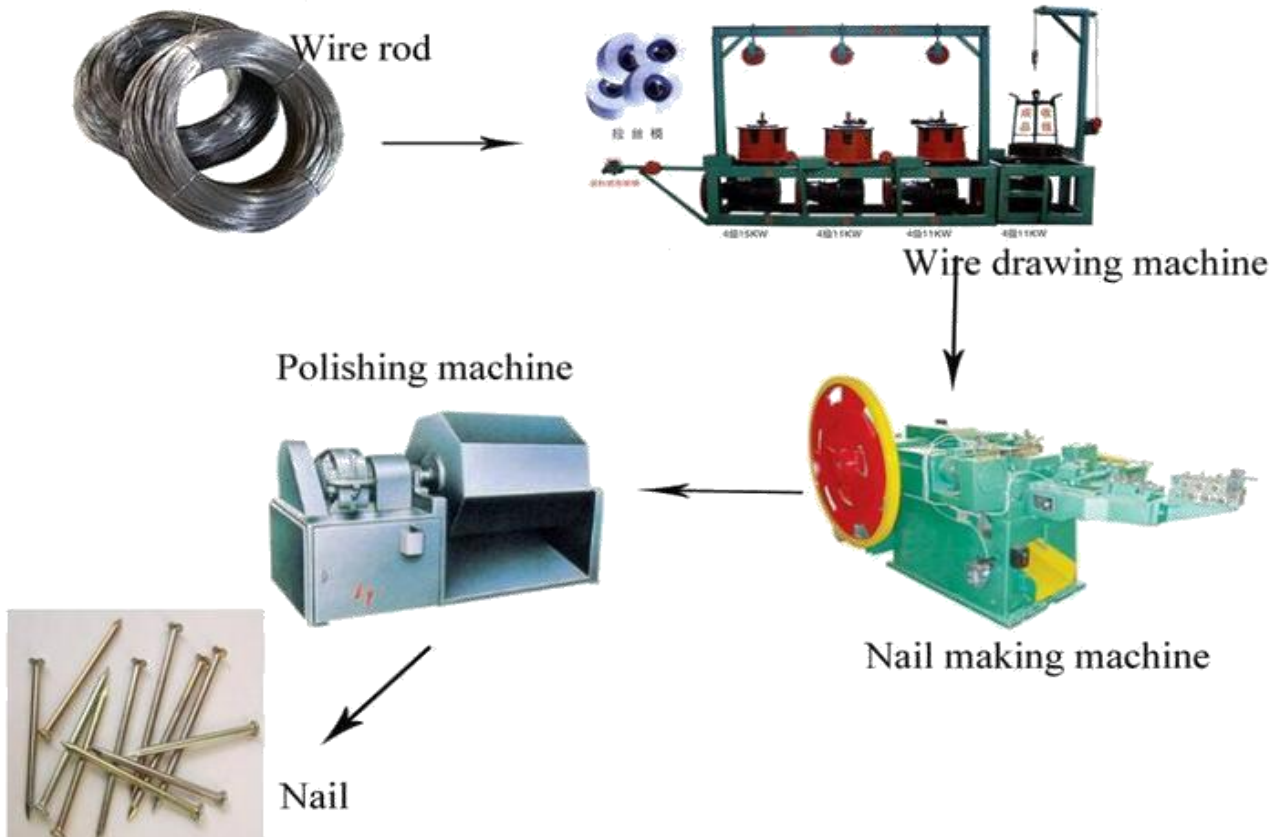

Price of Nail Making Machine							
Technical Date	Unit	Z94-1C	Z94-2C	Z94-3C	Z94-4C	Z94-5.5C	Z94-6.5C
Dimeter of Nail	mm	0.9-1.6	1.2-2.8	1.8-3.4	2.8-4.5	3.7-5.5	4.5-6.5
Length of Nail	mm	9-25	16-50	30-75	50-100	80-150	100-200
Capacity	Pcs/Min	450	350	320	280	200	160
Power	Kw	1.5	2.2	3	4	5.5	11
Weight	Kg	800	1200	1400	2000	2500	5000
Dimension	mm	1440*1040 *1270	1645*1215 *1345	1800*1260 *1460	2120*1540 *1590	2380*1580 *1600	3200*2200 *2200

Features of automatic nail making machine:

1. Nail making machine has the features of small in size, easy to move, low noise, low power consumption, and it is easy to operate, just need to change different size mould for making different diameter nails, if you want to make different lengths of nails for same diameter, no need to change anything.
2. Nail making machines can feed the materials automatically, and making nail body straight, nail points sharp and symmetric, nail caps round. Each nail made from this machine is excellent and perfect.
3. Main components (shaft, cams and gear) of nail machine are made of high quality steel, and durable in use, has good stability.

The process of producing nail

Advantage:

1. The machine is **made from bearing**, which make the machine less impact and low noise.
2. The machine can **feed the raw material** automatically.
3. The machine can **add lubricating oil** automatically.
4. One model nail making machine can **make different size of nails**.
5. The warranty time of our machines is **2 years**.

Polish machine

Technical data	Unit	SD-400	SD-600	SD-700	SD-1000	SD-2000
Capacity	kg	400	600	700	1000	2000
Motor power	kw	3-4	4.5-5.5	5.5-7.5	5.5-7.5	11-15
Overall size	mm	1640*90*1000	1800*1000*1100	1900*1050*1200	2000*1050*1400	2500*1500*1600

Accessories

HEBEI DINGSHENG MACHINERY MANUFACTURE CO.,LTD

Gripping Dies

Machines are provided with round dies having 8 or 10 nail holding grooves

Cutting Die

For cutting nails and making point after the head & shank are formed
Diamond, Chisel, Round, Long or Blunt shaped
Points can be made by grinding the tools appropriately

Header Dies

Used for formation of nail head
Chequered or Plain Heads can be formed with these dies
